

## Summer Camp 2023

Due to some difficulties with the new booking system at Croft Farm Water Park we have had to make some changes to the normal way we do things for our August Summer Camp. In short their system hasn't been able to differentiate between some of the criteria that should have enabled them to manage our normal booking on the event field to take place. As a consequence we have agreed to the following changes.

- The FOAOTMAD Summer Camp will take place on the Meadow at Croft Farm Water Park. The Meadow is the field that abuts the river at the bottom the site.
- As there is no permanent electric hook-ups on that field Croft are going to provide a generator that is capable of running and charging between 12 and 15 hook-ups. The generator will run for approx 2 hours per day at a time we select to recharge the leisure batteries on the hooked up vehicles and will be there for the full 10 days.
- There will be a 6m x 12m marquee on site for wet weather and social jams.
- There will be two sets of chemical toilets on the site as well as access to the two permanent toilet/shower/washing up points located by the lake.
- The campfire will be located there using the site's fire-pit.
- When booking you should book onto the meadow and mark your booking as FOAOTMAD and if you want a hook-up then also add electric hook up needed. The price for the hook-ups will be the same as anywhere else on the site.
- For anyone who has booked already you will need to contact the site directly and ask them to move you down to the Meadow with FOAOTMAD, if you have any problems just drop me a note from the Contact Us form on the website.

Having to change is annoying but hopefully it will give us a number of advantages over the event field and has the prospect of being a really comfortable and attractive site. It does have some disadvantages particularly for those who stay in pods etc. for which we can only apologise.

I would encourage you to book early both to secure your place but also to ensure we can demonstrate to the site that we want as much of the field as possible. The main site is already fully booked for the summer and well into 2024.

**PLEASE NOTE THE SPRING CAMP IS STILL IN THE EVENT FIELD AND SHOULD BE BOOKED AS NORMAL**
